[xiv], 126 pp. Lacking frontispiece (arms of Great Britain) and publisher advertisements at rear of text. Verso of final leaf has "The Rights of the Crowne" printed vertically through center. Moderate toning to text, occasional faint dampstaining to margins, worming to margins of a few leaves, light soiling to title page. $350.

* Only edition. Bagshaw was a member of the House of Commons during the Long Parliament. He wrote Rights of the Crown while imprisoned by the parliamentarians during the Civil War. "In the Civil War he went over to the king's side, and while taking a stance close to Coke's on the royal prerogative, rejected ideas of contractual monarchy and legitimate resistance as popish. Filmer's influence has been detected in his work, but Bagshaw's ideas bear a still closer resemblance to those of his 'deare friend' Robert Bolton who had been his tutor at Oxford.... Both mncombined a conventionally Calvinist approach to questions of theology with a sturdy rejection of theories of contractual monarchy" (Sommerville). Blount aimed to correct the defects he found in Cowell's Interpreter (1607) and Rastell's Termes de la Ley (1523). Nelson, the editor of the final edition, claimed to have added nearly three thousand words, which he collected from all the laws of the Saxon, Danish and Norman kings. Blount's Dictionary was first published in 1656, and along with Rastell's, Cowell's and Spelman's, is one of the earliest English law dictionaries. * First edition. "London is generally look'd upon to be not only the most Magnificent, but withal the most happy City in Europe. (...) London is indeed a very happy City; happy in the enjoyment of many Royal Priviledges and immunities, and happy in many excellent Laws peculiar to her self; her only Unhappiness is, that her Laws &c. are either confin'd within Old Charters, in Words not very intelligible, which I have taken care to explain; or scatter'd about in such little parcels and fragments, that many of them are quite worn out, others almost forgot, and the rest of little use to the generality of the Inhabitants. My design therefore in the following Sheets, is to provide a Remedy against this, by reducing all her Ancient Laws, &c. into such a plain and compendious Method, that they may not only be of use to Practitioners in the respective Courts, but likewise to every other person that has any concern in the Corporation (Preface). Though little is known about him personally, Bohun was an attorney and prolific author who published well-received treatises on legal education, pleading, ecclesiastical law and other subjects. Two more editions of Privilegia Londini were published in 1716 and 1723. English Short-Title Catalogue T56056. Order this item: http://www.lawbookexchange.com/details.php?record=63218

"The Most Learned Civilian of His Time"

6. Cowell, John [1554-1611].

Contemporary limp vellum, early hand-lettered title to spine. Moderate soiling, corners and spine ends bumped, small hole to center of spine, pastedowns loose. Large seal of Cambridge University to verso of title. Some toning, moderate edgewear to endleaves. Early owner signature (of Charles Milborne) to front and rear endleaves, interior otherwise clean. $950.

* First edition. As Walker notes, Cowell was "the most learned civilian of his time." Regius Professor of Civil Law at Cambridge from 1594 to 1611, he is remembered today as the author of an important (and controversial) dictionary, _The Interpreter_ (1607), which went through several subsequent editions. As indicated by its title, the _Institutiones_ is an elementary textbook on English law organized in the manner of Justinian's _Institutes_. As Holdsworth notes, "The objects of [this book] were to promote the union of England and Scotland by pointing out the resemblances between the common law and the civil law; to give the student of the common law some knowledge of the general principles of law; and to show the students of the civil law that if they would study the common law, they would improve their knowledge of both laws, and cease to be regarded as mere children in legal knowledge. That these ideas were sound is fairly obvious [today]... but they were in advance of their time." A translation of this book was ordered by Parliament in 1651, which indicates its stature during the Commonwealth period (despite Cowell's support of the crown). There were five editions in all; the final edition, in Latin, was published in 1676. Walker, _The Oxford Companion to Law_ 311. Holdsworth, _A History of English Law_ V:21. * First edition. This is the first English treatise on sheriffs. As its title suggests, it is a remarkably comprehensive work. Holdsworth, who cites it several times, says "in spite of a growing number of rivals, it continued to be a standard authority until the beginning of the eighteenth century."; History of English Law IV:119. Copy of Doddridge's *English Lawyer*
with Two Interesting Associations: Theron Metcalf and John Poulett

8. **Doddridge, Sir John [1555-1628].**

Handsome period-style quarter calf over marbled boards, endleaves retained. Minor wear to head of spine, corners lightly bumped, hinges partially cracked, original spine lettering piece and gilt-stamped device of John Poulett, originally part of front board, affixed to front pastedown, signature of Theron Metcalf dated 1834 to front free endpaper. Light browning to text, light soiling to title page. Occasional check marks, brackets and underlining in pencil, "0-1-0" in ink to head to title page in tiny hand, interior otherwise clean. A nice copy with two interesting associations. $1,750.

*Only edition. Doddridge wrote this book to advise aspiring lawyers. Among other points, such as suggested readings and advice concerning personal demeanor, he urges the student to acquire a solid liberal-arts education that emphasizes subjects with practical application, such as logic and etymology. Regarding the specifics of legal education, he discusses the best methods of study and information on the sources and principles of English law. Holdsworth said it was the "most notable" book of its kind. As distinguished a jurist as Coke and Bacon, Doddridge was a counsel of the King's Bench, a Serjeant for Prince Henry, Solicitor-General, a Member of Parliament and the author of five important works, all published posthumously. Poulett [1663-1743], 1st Earl Poulett, a Knight of the Garter, was First Lord of the Treasury. Metcalf [1784-1875], a distinguished New England jurist and legal writer, was an associate justice of the Massachusetts Supreme Judicial Court. Holdsworth, _A History of English Law_ V:397-398. English Short-Title Catalogue S109764.

9. [Dueling].
[Great Britain].
A Hint on Duelling: In a Letter to a Friend. London: Printed for M. Sheepey, 1751. [iv], 22 pp. With a half-title. Octavo (8" x 5"").

Stub-stitched pamphlet in contemporary marbled wrappers. Light rubbing, a few creases to wrappers. Moderate toning to text, light soiling to preliminary leaves and verso of final leaf. Early owner inscription to head of half-title, interior otherwise clean. A nice copy of a rare title. $1,950.

* First edition. The author does not want to suppress dueling in all cases, but suggests that the practice could be diminished substantially by the "The erecting of a proper Court, A Tribunal of Honour," where aristocratic court officers and jurymen "shall sit to prevent the Calamities of which Duelling may be productive, or to exact proper penalties of the proper offenders. No longer let Men of Honour be hauled before incompetent judges, whose Stations incapacitate them from sympathizing with the Accused, or entering into the merits of the Case; but let them have the Common Right of Englishmen and be tried by their Peers. No longer let the unfortunate Challenger, but he who made the challenge unavoidable, be punish'd. No longer let a shameful Death be the Retribution of an Action which the Voice proclaims it Infamous to Decline. The Decision of Men of adequate Character and Authority would in most Cases after Insults received prevent Duels; and where they fail'd, a due-proportioned Punishment judiciously and impartially inflicted would soon lessen the frequency of the practice" (12-13). A second edition was published in 1752. It provoked a response by Abraham Clarke entitled, A Home-Thrust at Duelling, Intended as an Answer to a Late Pamphlet Intitled, A Hint on Duelling. Both editions of A Hint are rare. OCLC and the ESTC locate 1 copy (Lambeth Palace Library) and 2 copies of the second edition (British Library, National Library of Scotland). Jacob's Popular Guide, The Last Edition Published During the Author's Lifetime

13. [Jacob, Giles].

Contemporary calf, blind rules to boards, blind fillets along joints, rebacked retaining original spine with raised bands, hinges mended. Minor scuffing to boards, negligible chipping to foot of spine, corners bumped and lightly worn. Some toning to text, light foxing in a few places. Early owner annotations and signatures to endleaves, interior otherwise clean. $950.

* Third edition, the last one published in the author's lifetime. The eleventh and final edition of this popular layman's guide was published in 1791 and reissued at least two more times in the 1800s. The mention of "All Manner of Persons" in the subtitle is significant. Jacob, though certainly interested in boosting sales by attracting the widest audience possible, was an idealist who believed that widespread knowledge of the law would help create a more just society. This is also evident in his other publications, such as The Common Law Common-Placed (1726) and Treatise of Laws (1721). The ESTC notes eight leaves of advertisements at the end of this title, these not present in our copy. OCLC locates 2 copies in North American law libraries (Harvard and the University of Georgia). An Interesting Perspective on Elizabethan England

14. Lambard(e), William [1536-1601].
Octavo (6-1/4" x 4-1/2").

Recent period-style paneled calf, blind fleurons to inside panels, raised bands and blind ornaments to spine, early hand-lettered title to fore-edge of text block. Title printed within woodcut architectural border, woodcut head-pieces, tail-pieces and decorated initials, woodcut arms of dedicatee, Sir Robert Bromley, facing dedication leaf, large woodcut device to verso of final leaf. Light toning to text, some edgewear to endleaves and title page. Brief early annotation to front endleaf, interior otherwise clean. An appealing copy.
$2,500.

* Second edition, one of two issues from 1582. Lambard, or Lambarde, a barrister and legal historian, was the keeper of records at the Rolls Chapel and the Tower of London. First published in 1581, Eirenarcha is esteemed for its comprehensive and systematic account of the organization of local government under the justices of the peace at the end of the sixteenth century. It was the standard authority for many years and often reprinted. Like many books of its kind, Eirenarcha offers fascinating insights into the society that produced it. This is evident in the detailed indictments for such offenses as murder via witchcraft, raping a child or maid (the age of distinction was ten), hearing a Catholic Mass, practicing usury and operating a bowling alley. It was originally written in Law French with the Latin title *Expositiones Terminorum Legum Anglorumae*. Later editions were produced by his son, William. Quite popular with students and lawyers due to its clarity and concision, it went through at least twenty-five editions by 1721. A final reissue appeared in 1819. As Marvin observes, it is a useful dictionary because it "reflects the common law at the close of the year-book period with much fidelity.": *Legal Bibliography* 599. *English Short-Title Catalogue* R201044.

18. Saint German (Germain), Christopher [1460-1540].

Eighteenth-century calf, rebacked, raised bands and lettering piece to spine, endpapers renewed. Some rubbing to extremities, corners bumped and worn. Title printed within woodcut architectural border. Toning to text, faint dampstaining in places, a few worm holes to fore-edge leaves just touching text in a few places, light soiling to title page, which has a chip (1-3/4" x 1/2") to fore-edge with some loss to printed border. Contemporary and later (probably eighteenth-century) annotations to title page and some text leaves, interior otherwise clean. $1,850.

Originally written in Latin in 1523, this work contains two dialogues between a doctor of divinity and a student of English law. It popularized canonist learning on the nature and object of law, the religious and moral standards of law, the foundations of the common law and other issues regarding the jurisdiction of Parliament. A very important work in the development of equity, Doctor and Student appeared in numerous editions. An authority well into the eighteenth century, it influenced several writers, including Blackstone. From the Library of Lord Byron?

19. [Salmon, Thomas (1679-1767)].

Recent period-style quarter calf over marbled boards, raised bands and lettering piece to spine, endpapers renewed preserving early armorial bookplate (of William Frederick Webb) and annotated auction record of this copy on front free endpaper. Armorial bookplate (of George Wildman) to verso of title page. Early check marks in pencil to first chapter. Attractive woodcut head and tail-pieces. Light soiling to title page, toning to text, negligible foxing to a few leaves. A nice copy that may have an interesting provenance. $950.

* First edition. Salmon was a prolific Scottish writer on legal, historical and geographical subjects. He spent many years abroad and later accompanied George Anson on his 1739-1740 voyage around the world. His wide experiences as a traveler may have furnished the information used in the book's section on marriage rites, which discusses the practices of Denmark, Livonia, Lapland, Germany, Greece, Armenia, Turkey, Persia, India, Ceylon, Siam, China, Japan, Morocco, Guinea, Ethiopia, Chili, Peru, Brazil, Paraguay, America, Mexico, Canada, Russia and Sweden. Whether he actually visited these places or not, Salmon's book remains a fascinating document of English social values, anthropological views and
legal philosophy in the immediate decades after the Civil War and Restoration. This book was published anonymously in 1724. The second edition, which states the author's name, was published later that year. The auction record, which appears to be from the late nineteenth century, says this copy belonged to Lord Byron and adds "a few pencil marks by Lord Byron show that the first portion 'Marriage Preferable to a Single Life' was carefully perused, and it is to be hoped was not responsible for his life of misery." An annotation to this entry reads "From Lord Byron's Newstead Abby Library." Dictionary of National Biography XVII: 697-698. English Short-Title Catalogue T95175. First Edition of Selden's Edition of Fleta and His
Ad Fletam Dissertatio From the Library of Sir Frederick Pollock

Contemporary calf, blind rules to boards, "Fleta" in contemporary hand to fore-edge of text block, endpapers renewed, recently rebacked in period style, hinges mended. "F. Pollock/ Linc: Inn" to front pastedown, "F. Pollock/ Linc: Inn/ 1881" to head of title page, which is printed in red and black. Two early struck-through signatures to title page, notes in Pollock's hand to rear endleaf, additional sheet of his notes laid-in. An appealing association copy. $850.

* First edition. The work by an anonymous author describes the practice of the courts, the forms of writs and an explanation of law terms as they existed during the reign of Edward I. Selden brought this ancient treatise to the public's attention and was instrumental in its publication. While Bracton earns the highest praise as the father of legal learning, Fleta earns a share of it for the illustrations he offered to some of the obscurities found in Bracton. Selden's appended dissertation (pp.453-553) contains many interesting observations about Bracton, Britton, Fleta, and Thornton "and shows what use was made of the Imperial law in England whilst the Romans governed here, at what time it was introduced into this nation, what use was formerly made of it, how long it continued, and when the use of it totally ceased in the King's Courts at Westminster" (Bridgman). Sir Frederick Pollock [1845-1937] was one of the greatest British judges and legal scholars of his day. His treatises on contracts, jurisprudence the common law and other subjects did much to clarify and systematize English law. Several of these were standard texts that went through several editions. He is also remembered for his collaboration with F.W. Maitland on The History of English Law Before the Time of Edward I and his correspondence with Oliver Wendell Holmes, which was published as The Holmes-Pollock Letters. Aspects of English Nobility

23. Selden, John [1584-1654].

[Bound with]
[Bird, William].

Octavo (5-1/2" x 3-1/2"). Contemporary sheep, blind rules to boards, later calf rebacking, lettering piece and blind fillets to spine, early hand-lettered title to fore-edge of text block. Some rubbing to extremities with wear to corners, boards slightly bowed, scuff to front board, rear pastedown loose, later armorial bookplate of the Earls of Macclesfield to front pastedown, small embossed Macclesfield stamp to head of title page and following leaf, armorial bookplate of Thomas Parker, First Earl of Macclesfield to verso of title page. Title page of Nobilitie printed within woodcut border. Some toning to text, brief annotations to endleaves, interior otherwise clean. $650.

* Priviledges: first edition; Nobilitie: only edition. This volume collects two books on the nobility that were responses to specific incidents. Selden's Priviledges was commissioned by the House of Lords to define its rights during a period of mounting tension between the king and Parliament. A work that angered the king, it asserted the House of Lords's power...
of judicature and provided historical grounds for such "special rights" as freedom from lawsuits during the sitting of Parliament. Bird's *Nobilitie* was a response to a contemporary controversy regarding the legitimacy of Edward Nevill's claim to the title of Lord Bergavenny. His claim is the starting point for a general review of peerage law. A later edition, with additions by Sir John Doddridge, was published later in 1642 as *The Magazine of Honour; Or, A Treatise of the Several Degrees of the Nobility of this Kingdom*. Thomas Parker, distinguished jurist, was Lord Chancellor from 1718 to 1725. Housed in Shirburn Castle, the library of the Earls of Macclesfield was one of the finest private libraries in Great Britain. *English Short-Title Catalogue R10915, R18509*. Recent period-style calf. Blind rules with corner fleurons to boards, raised bands, gilt ornaments and lettering piece to spine. Woodcut head-pieces and decorated initials. Moderate toning to text, somewhat heavier in places, faint spotting to a few leaves, some discoloration and minor edgewear to title page. A nice copy in a handsome binding. $1,500.

* Second and final edition. Sheppard's treatise, originally published in 1662 as *Action Upon the Case for Slander*, was one of the first two books to address the topic. (The other was William March's *Actions for Slaunnder*, 1647.) As indicated by its preface, Sheppard's is especially interesting. "[A]mong the abiding Inquity of this Age, the iniquity of the Tongue, that little Member, set on fire by Hell, is not the least; And among the evils of the Tongue, is there any more pernicious and deadly, and yet more common and epidemical then Backbiting and Slander? (...) It is true, that in former times, wee finde Actions of the Case for Slanderous words very rarely brought; which speaks this much, that such words were then very rarely spoken. But in these daies they are become almost as natural to men, as their language and discourse; and therefore the disease, so deeply rooted, and over-spreading, calls for the application of the Remedy, which our Law doth abundantly furnish us withall. And hence it is, I have been encouraged to ingage in this work; which is nothing else but a naked and Methodical Collection of the remedies prescribed by the Law against this Malady." OCLC locates 5 copies in North American law libraries (Library of Congress, State of Oregon Law Library, University of Pennsylvania, University of Washington, Yale). *English Short-Title Catalogue* R31192.

* Second edition. The first edition of this important work was published in 1698, fifteen years after Sidney’s execution for treason in 1683. A reply to Filmer’s Patriarcha, the Discourses is one of the earliest modern statements of republican ideals. He proposes a doctrine of natural justice and governmental order from which all institutions vary at their peril. More important, Sidney asserts that a king’s authority is granted by parliament, which has the additional power to depose him—controversial ideas indeed during the Restoration period. Thomas Jefferson, one of several individuals influenced by this text, described it as "... probably the best elementary book of the principles of government, as founded in natural right which has ever been published in any language; and it is much to be desired in such a government as ours that it should be put into the hands of our youth as soon as their minds are sufficiently matured for that branch of study." (Sowerby). Sidney was beheaded by Charles II in part for his involvement in the Rye House plot. One of the other charges against him was that he had committed treasonable libel in his Discourses, which was still in manuscript at that time. Holdsworth, who cites it often and considers it "the most practically useful book of [its] period" notes that "it is a very useful summary of the law as to wills and executors as administered in the ecclesiastical courts.": *A History of English Law* V:14. *English Short-Title Catalogue* S118071. Contemporary calf, blind rules to boards, blind fillets along joints, raised bands to spines, early hand-lettered titles to fore-edges. Some rubbing to extremities, a few minor scuffs and stains to boards, chipping to spine ends, joints and hinges starting, corners bumped and somewhat worn. * Second edition. "[During the eighteenth century a] number of books aimed at setting out more or less a summary of those branches of law which would be useful to the clergy. The most elaborate of these books is [the present title], which was first published in 1701.... The author was a clergyman who held the deanery of Battel; but he had been educated with a
view to becoming a practitioner in the ecclesiastical courts, and had taken his degree of doctor of laws. Because he had had a legal education he was, he tells us 'soon apply'd to by his neighbours, as a person able to advise them in the many doubts and difficulties that daily occurred to them.' (...)

The book deals clearly and systematically in fifty-nine chapters with the law and practice on all topics which are useful to the clergy. It is a learned book; but, as the title page indicates, it is compiled almost entirely from the English cases, statutes and other authorities, to which the full references are given. Though the author is an L.L.D. he is obviously more learned in English law than in the civil or canon law.": Holdsworth, History of English Law 12:622-623. The first edition was published in 1701; the fourth and final in 1747. English Short-Title Catalogue N3137. Order this item: http://www.lawbookexchange.com/details.php?record=57943
