JOHN N. POMEROY [1828–1885] was a dean and professor of law at New York University and University of California.

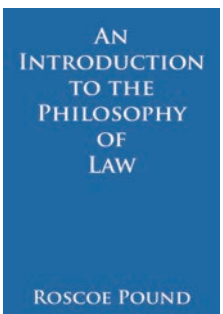

. . . [o]ne of the main strengths of Pomeroy is the treatment of the fundamental principles or maxims of equity: that treatment is unrivaled in any modern equity text.
Peter McDermott
International Trade and Business Law Annual 2 (2):297 (1996)

Few modern textbooks are of permanent value. Pomeroy's Equity Jurisprudence is an exception.

Albert J. Beveridge in Vanderbilt *Studying Law* 27

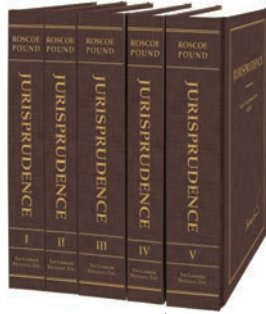

As a book of reference, indeed, it will outrank the Restatements.... As an encyclopedia, too, Pomeroy is useful as indicating some of the reaches of our equitable process.

This important work appeared fifteen years after Sidney's execution for treason in 1683. A reply to Filmer's *Patriarcha*, the *Discourses* is one of the earliest modern statements of republican ideals. He proposes a doctrine of natural justice and governmental order from which all institutions vary at their peril. More important, Sidney asserts that a king's authority is granted by parliament, which has the additional power to depose him, indeed a controversial idea during the Restoration period. Thomas Jefferson, one of several individuals influenced by this text, described it as "...probably the best elementary book of the principles of government, as founded in natural right which has ever been published in any language; and it is much to be desired in such a government as ours that it should be put into the hands of our youth as soon as their minds are sufficiently matured for that branch of study." (Sowerby, *Catalogue of the Library of Thomas Jefferson*, III:12).

ALGERNON SIDNEY [1622–1683] was beheaded by Charles II in part for his involvement in the Rye House plot. One of the other charges against him was that he had committed treasonable libel in this work, which was still in manuscript at that time.

Justly famous as a historian and comparative lawyer, Sir **PAUL VINOGRADOFF** [1854–1925] also wrote on public international law and jurisprudence.

Written in the wake of the Napoleonic Wars and the Congress of Vienna, the *Vocation* proposed a common legal code for the newly liberated German states, and attacked Thibaut's advocacy of a code based on natural law. Though he aimed in part to improve the administration of justice, **FREDERICK CHARLES VON SAVIGNY** [1779–1861], a founder of the influential "historical school" of jurisprudence hoped that a common legal system would serve a larger goal: the promotion of a spirit of unity among Germans.

Founded in 1983, The Lawbook Exchange began publishing reprints of legal classics in 1991, and introduced original titles in 2003. We currently serve thousands of individuals and institutions worldwide.

Although we have been publishing new original titles since 2003, we have issued them under the same imprint as our reprint editions: LAWBOOK EXCHANGE, LTD. In 2013 we divided our publication division into two units.

Our imprint, TALBOT PUBLISHING, presents new monographs of current scholarship in law and legal history.

LAWBOOK EXCHANGE REPRINTS is a series of more than 1,000 classic texts, many with new introductions, indexes and other new material by leading scholars. This series also includes recent monographs for which we have obtained copyright, thus they are not available elsewhere. Most of those are included here. Our reprints feature unabridged, carefully reproduced texts, acid-free paper and attractive, high-quality bindings.
